Factsheet | Data as of 28 Feb 2021

Investment Objective

HAN-GINS Tech Megatrend Equal Weight UCITS ETF (ITEK) is a UCITS compliant Exchange Traded Fund domiciled in Ireland. ITEK tracks the Solactive Innovative Technologies Index (Net Total Return), an index of leading companies that are driving innovation in sectors including Robotics & Automation, Cloud Computing & Big Data, Cyber Security, Future Cars, Genomics, Social Media, Blockchain and Digital Entertainment.

Why ITEK?

Global Trends:

ITEK constituents are not limited to one region or country, providing exposure to innovative companies on a global basis.

Transparent, Modern Approach:

ITEK follows a transparent rules-based index to identify and capture companies that are leading technology innovation.

Efficient:

In a single trade, ITEK delivers exposure to over 80 companies with high exposure to the innovative technology theme.

Double Diversification:

ITEK avoids concentration in larger stocks by using a double diversification approach that allocates an equal weight to each innovative theme and then equal weights constituents within that theme.

Key Risks

1. The value of equities and equity-related securities can be affected by daily stock and currency market movements.
2. Emerging & frontier markets are subject to greater market volatility than developed markets.
3. Investors' capital is fully at risk and investors may not get back the amount originally invested.
4. Exchange rate fluctuations could have a negative or positive effect on returns.
